RESPONSE TO A DECISION OF THE OFFICE OF PETITIONS DIRECTOR

Outstanding Decision of the Director of the Office of Petitions Mailed 2001,

Outstanding Letter of the Supervisory Petitions Examiner Mailed 2002, January

Hon. Commissioner for Patents

Washington, District of Columbia 20231 of this petition

Sir:

Applicant thanks very much the Supervisory Petitions Examiner for his letter
mailed on 01/24/02 and arrived at its destination only on 02/13/02.

But applicant confirms what it was already clear from his communication of
12/17/01, i.e. that he has no intention at all to pay a petition fee of \$130.00. In his
communication of 12/17/01, applicant was implicitly dropping his petition by just
deploring that the "rule" adopted in MPEP 706.07 (h) to turn automatically a
continuing application under old 37 C.F.R. 1.62 into a CPA did not allow to publish his
application in good conditions. Applicant has fully understood that this rule was giving
no chance that his petition of 11/08/01 could be agreed and he does not want to be
doubly penalized. Applicant is sorry but he cannot endure as an independent inventor
to repay a just already paid filing fee plus a penalty fee of \$130 to take benefit of the sole
possibility to escape the publication of his application.
